

## Equivalence of CGPA with Percentage of Marks

At Bhartiya Skill Development University Jaipur, a student's overall performance is indicated by their Semester Grade Point Average (SGPA) for a semester and their Cumulative Grade Point Average (CGPA), which is the weighted average of the SGPA's of all completed semesters. Grades are awarded based on performance and do not directly correspond to any fixed percentage of marks obtained. Although it is not possible to convert CGPA into an exact percentage of marks, the following conversion factors have been approved by the BSDU Academic Council to meet industry and organizational demands:

For batches up to 2023-24: Percentage = **CGPA × 9**

For the batch starting from 2024-25 onwards: Percentage = **CGPA × 10**
